## TMPE633   Reconfigurable FPGA with Digital I/O PCIe Mini Card

TMPE633-12R

Application Information

The TMPE633 is a standard full PCI Express Mini Card, providing a user programmable Xilinx Spartan-6 LX25T FPGA.

The TMPE633-10R provides 26 ESD-protected 5V-tolerant TTL lines, the TMPE633-11R provides 13 differential I/O lines using EIA 422 / EIA 485 compatible, ESD-protected line transceivers and the TMPE633-12R provides 13 differential I/O lines using Multipoint-LVDS Transceiver.

All I/O lines are individually programmable as input or output. TTL I/O lines can be set to high, low, or tristate. Each TTL I/O line has a pull-resistor to a common programmable pull voltage that can be set so +3.3 V, +5 V and GND. Differential I/O lines are terminated, RS-485 lines with 120 Ω, M-LVDS lines with 100 Ω.
The I/O signals are accessible through a 30 pin Pico-Clasp latching connector.

The User FPGA is configured by a SPI flash. An in-circuit debugging option is available via a JTAG header for read back and real-time debugging of the FPGA design (using Xilinx "ChipScope"). For direct JTAG access to the FPGA using the Xilinx Platform Cable USB, the TA308 Programming Kit is required.

User applications for the TMPE633 with XC6SLX25T-2 FPGA can be developed using the design software ISE WebPACK which can be downloaded free of charge from www.xilinx.com.

TEWS offers a well-documented basic FPGA Example Application design. It includes an .ucf file with all necessary pin assignments and basic timing constraints. The example design covers the main functionalities of the TMPE633. It implements local Bus interface to local Bridge device, register mapping and basic I/O. It comes as a Xilinx ISE project with source code and as a ready-to-download bit stream.
Please note: The basic example design requires the Embedded Development Kit (EDK), which is part of the Embedded or System Edition of the ISE Design Suite from Xilinx (downloadable from www.xilinx.com, a 30 day evaluation license is available).

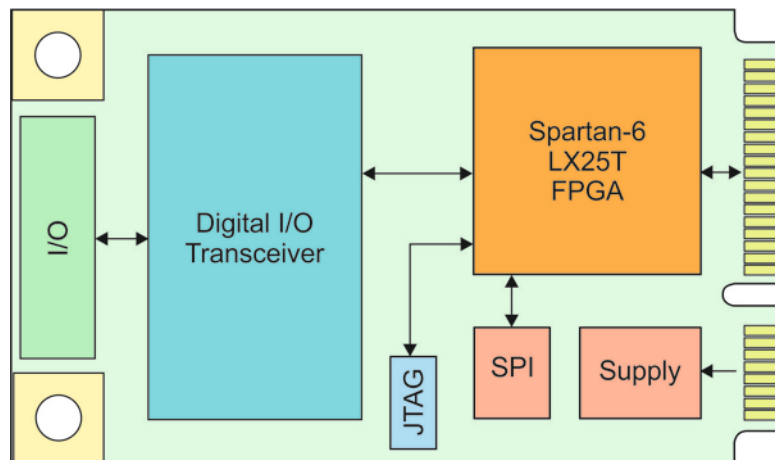

TA308 with TMPE633-12R

Issue 1.0.5

TA308 with TMPE633-12R & Platform Cable USB

TA309

Technical Information

- Form Factor: Full-Mini Card
  - Board size: 50.95 mm x 30 mm
  - PCI Express 1.1 compliant interface
- Xilinx XC6SLX25T-2 Spartan-6 User programmable FPGA
  - PCIe endpoint in FPGA
- 64 Mbit SPI-EEPROM for FPGA configuration and User Data
- Digital I/O
  - 26 ESD-protected 5 V-tolerant TTL lines with programmable pull resistor (-10R)
  - 13 differential RS-485 lines (-11R)
  - 13 differential M-LVDS lines (-12R)
  - Direction individually programmable
- I/O access
  - 30 pin Pico-Clasp latching connector
- Operating temperature -40°C to +85°C
- MTBF (MIL-HDBK217F/FN2 GB 20°C)
  TMPE633: 980.000 h

Order Information

RoHS Compliant

TMPE633-10R   26 TTL I/O, Spartan-6 LX25T FPGA
TMPE633-11R   13 RS-485 I/O, Spartan-6 LX25T FPGA
TMPE633-12R   13 M-LVDS I/O, Spartan-6 LX25T FPGA

For the availability of non-RoHS compliant (leaded solder) products please contact TEWS.

Documentation

TMPE633-DOC   User Manual

Software

TDRV020-SW-25   Integrity Software Support
TDRV020-SW-42   VxWorks Software Support (Legacy and VxBus-Enabled Software Support)
TDRV020-SW-65   Windows Software Support
TDRV020-SW-82   Linux Software Support
TDRV020-SW-95   QNX Software Support

For other operating systems please contact TEWS.
