

## TVME202 VMEbus Carrier for 4 IndustryPacks®

### Application Information

The TVME202 is 6U VMEbus Carrier for up to 4 single-size or 2 double-size IndustryPack (IP) modules provides modular, flexible and cost effective I/O solutions for applications in process control, medical systems, telecommunication and traffic control.

A set of 16-position rotary switches allows easy configuration of VME Short I/O and Memory addresses. Interrupt routing from the IP slots to the VME IRQ's is programmable by software or can be selected from predefined sets by a rotary switch.

Four 50 pin 0.1 inch flat ribbon cable connectors mounted on the TVME202 provide front I/O access to all IP I/O lines.

Status indicators for IP access, +5V and +/-12V are provided.

The IP power lines are fuse protected by self healing fuses and RF filtered. The operating temperature ranges between -40°C and +85°C.
