

REACH Declaration

Regulation (EC) No 1907/2006 and SVHC candidate list as updated 14 June 2023

TEWS Technologies GmbH is a leading supplier for embedded I/O solutions. As a manufacturer of electronic products, our company is considered to be a “downstream user” in terms of REACH.

All products supplied by TEWS Technologies GmbH are non-chemical goods. Under normal and foreseeable circumstances of the application, our products shall not release any substances.

According to REACH – Art. 33 TEWS Technologies GmbH will inform its customers should a product contain any of the substances on the Substance of Very High Concern (SVHC) candidate list (ECHA 235 substances) above a concentration of 0.1% by weight per article.

Complementary to the above TEWS Technologies GmbH has installed procedures to monitor the developments of the REACH legislation continuously and is committed to meeting the responsibilities of an environmentally conscious company and guaranteeing high product safety for its customers.
